PELTIER-COOLED INCUBATOR ILP

Advantages Over Compressor-Cooled Incubators:

- **Environmentally friendly** : Elimination of compressor and refrigerants ensures environmental protection.
- **Lighter and smaller** : The Peltier-element system has reduced the size and weight of the unit.
- **Vibration-free** : With the introduction of the Peltier-element system, vibrations previously generated by the compressor have been eliminated.
- **Perfect performance** : The cooling system based on the Peltier-element features excellent temperature stability and uniformity. It also improves the temperature recovery time (e.g. after door opening).
